Dear Sir;

I am asking you to stop Downed Animal Suffering of Docket  
No 98P/ 0151 CP1.

Downed animals are too sick and should not be allowed for  
slaughter in the food chain. Downed animals can not be given the  
medical services provided for them, they are merely dragged away  
and should not be slaughtered for human consumption.

The amount of animals that I see on the cattle trains for  
slaughter is tremendous, every day on rail way tracks.

There is need to slaughter downed animals for slaughter  
a very small percentage.

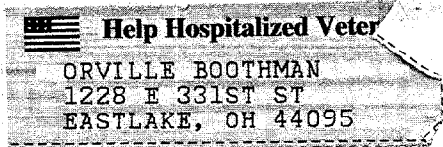

Thank you,

*Orville W. Boothman*
